P26

Bureau of Land Management,

RECEIVED
BUREAU OF LAND MANAGEMENT

2001 JAN -4 PM 2:26

CALIF. DISTRICT
RIVERSIDE/CA.

I strongly support the Committee and its opposition to the Desert CABR

Project to drain an ancient aquifer underlying the Mojave Nat. Preserve.

① The draining of this could cause irreparable harm to the delicate ecosystem in the desert

② The SEIS does not contain complete information on the quality of the ground water

③ If Cadiz is in charge of our resources; this will not protect my, our public interests

P26-1

Yours truly
CAROL Jarnowsky
