RECEIVED
COUNTY LAND MANAGEMENT

2001 JAN -9 AM 8:50

COUNTY DISTRICT

RIVERSIDE, CA

It appears to me that the Cadiz Water Project is extremely ill advised. What kind of land management would drain a desert aquifer thus killing the existing ecosystem?

P62-1

P62

Strict conservation measures for water use in LA and San Diego would go a long way to solve their water "shortage".

P62-2

The desert needs to be preserved. It is not a wasteland nor is it "owned" by anyone any more than the air is "owned".

P62-3

Thank you —
Philip A Beyman

PS For what it's worth
I'm a native Californian, 50
year resident, and am happy
to get politically involved.
