Re: The Cadiz proposal to drain ~~the~~ ^{the} ~~area~~ ^{area} ~~of~~ ^{of} ancient aquifers.

The approval of this project will endanger the rare animals and plants of the Mojave desert community, including the desert tortoise and the desert bighorn sheep, thus causing irreversible damage. It affects the wildlife and air quality in the Mojave National Preserve, Joshua Tree National Park and five BLM wilderness areas.

94-1

This decision has enormous ramifications for the future of water management. Let's stop playing God!

94-2
